Philips AVENT
Feeding bottle

330mlx3
Variable Flow Nipple

SCF646/37

For healthy, active feeding

Clinically proven to reduce colic

The Philips AVENT Airflex feeding bottle uses the unique AVENT Airflex teat, which promotes healthy, active feeding and works with baby's natural feeding rhythm. The Airflex teat makes it easier for baby to switch between breast and bottle.

Benefits and features:

- Clinically proven to reduce colic
- Easy to combine breast and bottle feeding
- Built-in Airflex Valve
- Variable flow nipple for thicker feeds

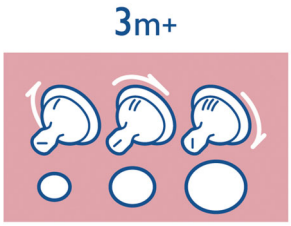
Highlights

For thicker feeds



The variable flow nipple has a slot cut which provides an adjustable the flow rate. Flow rate can be varied by simply turning the bottle to align the I, II or III markings on the nipple with the baby's nose

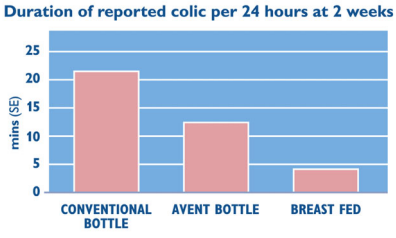
Easy to combine breast and bottle feeding

The natural 'breast-like' shape makes it wasy to combine breast and bottle feeding

Built-in Airflex Valve

The AVENT Airflex Feeding Bottle uses an Airflex Valve which works with baby's natural feeding action.

Clinically proven to reduce colic



A clinical trial demonstrated that at 2 weeks of age, babies fed with the AVENT Bottle experienced less colic than babies fed with a conventional bottle. (www.philips.com/AVENT).
